Terms and Conditions of Sale

TERMS — The terms of the sale are cash, unless other arrangements are made with the consignor from whom the cattle are purchased before the sale commences and the sale manager is notified of the arrangement. Buyers who are not known to the sale manager will bring bank references. Settlements are to be made with the clerk of the sale immediately at the conclusion of the auction. All stock will be at the buyer's risk as soon as bid off, but the management will attend to loading on cars or trucks in compliance with instructions from the purchasers.

GUARANTEE — All cattle are sold subject to a sixty day retest for tuberculosis and health certificates will be furnished to enable them to be shipped into any state. All cattle have been blood tested for Bang's Disease and Tuberculosis within a period of thirty days prior to the sale, unless calfhood vaccinated and under 24 months of age. Bulls are guaranteed breeders if properly cared for and not allowed to run with the herd. If a bull fails to breed, he may be returned to the seller if in as good condition as when bought and, if after a test in the seller's herd, he still fails to breed, he will be replaced or the purchase money will be refunded. All cows with calves at foot are considered breeders and no further guarantee is made with respect to them. All other females sold are guaranteed to be breeders.

Animals returned to sellers because they do not comply with guarantee will be at buyer's cost of transportation.

The above guarantee and terms shall constitute a contract between consignor and buyer of each lot. Neither the Indiana Polled Shorthorn Association, Inc., the Sale Manager nor the clerk of the sale assumes any liability legal or otherwise.

A certificate of registry and a signed transfer will be furnished for each lot sold. An application for registry will be furnished for each unborn calf sold in dam.

All footnotes were written by the consignors.

We will not be responsible for any accidents that may occur but will make every effort to provide for the safety and comfort of our guests.

Any announcement or correction of material in the catalog made from the auction stand on sale day will take precedence over the matter in the catalog.

MAIL BIDS — Those wishing to buy at this sale, who cannot be present may send bids to H. W. Walker, 3906 East 71st St., Indianapolis 20, Indiana, or telephone Tilden 9-2248; Hal Longley, The Shorthorn World, 16 S. Locust St., Aurora, Illinois; to any of the consignors, field men or officers of the State Association.

Sale Headquarters — Severin Hotel, Indianapolis, Indiana.

Attention 4-H and F.F.A. Members: **Six \$25.00 Prizes in Credit on Purchases**

Chairman: Charles H. Nickel, Carmel, Indiana

On October 1, 1960 there will be a judging contest for 4-H and F. F. A members at the Hamilton County 4-H Club Grounds in Noblesville. There will be four classes of Polled Shorthorns furnished by Lynnwood Farm. The contest will start at 9:00 A. M. (E. S. T.).

This is in connection with the Blue Ribbon Invitational Sale sponsored by the Indiana Polled Shorthorn Breeders Association. There will be \$150.00 in credits, offered as prizes to the club members with the highest scores in this contest; these credits to be used in the sale.

There will be sixty-five head of Polled Shorthorns in the sale, and that includes a large number of very very choice heifers that were calved in 1960, which makes them ideal Club projects for 1961. In addition to these heifers, there will be between ten and fifteen extra good steer calves suitable for 1961 projects.

No advance entry is absolutely required; however, we would appreciate it, if it is at all possible, if you would notify Charles H. Nickel, Carmel, Indiana, of your intention to take part.

There will be approximately eighteen bulls and also a number of very choice open and bred heifers from the best herds not only in Indiana but from other states as well.

Nancy Helmuth, Carmel, Indiana, with her Champion Heifer
Mixed Competition, Hamilton County Fair.
Half Brother to the Heifer sells as lot 1.

SHOW CLASSIFICATION

Judge - B. Hollis Hanson

Hanson Height's Farm, Connersville, Indiana

BEEF CATTLE — A SOUND INVESTMENT

In good times or bad, an investment in livestock is always sound business. Some years the investment pays a bigger dividend than others but over the long pull, livestock sales have, and always will, be an important part of the smart farmer's overall production program. The latest USDA report indicates that farm receipts during the first four months of 1960 declined 3 percent. However, livestock income was down only 2 percent while that for crops dropped 4 percent. These figures indicate the livestock producer fared better than the straight grain farmer.

The University of Illinois released a study in early April showing average returns for major livestock enterprises for the last five years and comparisons with 10 years ago. The figures are based on per \$100 feed cost. These figures show that in 1959 the beef cow herd was the best investment. Beef cow herds returned \$147 per \$100 feed cost as compared with \$114 for hogs, \$191 for dairy cattle, \$120 for poultry and \$102 for sheep. These figures take on more meaning when the estimates of average break-even returns to cover total costs of production are considered. These estimates in 1959 were hogs, \$145; beef cow herds, \$145; dairy herds, \$200; and larger poultry flocks, \$175. Only the beef cow herd showed a greater return than estimated costs. Both last year and in the 10-year average comparison the beef cow man fared better than the farmer who purchased feeders to consume his grains and forages.

The 1959 figures do not bear out our contention that all livestock is a sound investment but the 10-year figures show substantial returns for livestock over feed costs. They also indicate that those farmers who combine a beef-swine operation are on a sounder footing than those who put "all their eggs in one basket".

Arnold Erickson, market specialist for the Corn Belt Farm Dailies, recently wrote in the Chicago Daily Tribune: "There is little doubt among cattlemen that the last seven years were a period of the healthiest market stability in almost a half century. Data show that the margin over feed grain costs was the widest in history. Annual average prices paid for cattle by federally inspected packers in the last seven years showed a fluctuation of only \$7.55, little more than half the fluctuation of \$15.05 in the preceding seven years."

Yes, livestock, especially the beef cow herd, is a sound investment. It provides a dependable, relatively stable market for home-raised grains, it utilizes roughages and grasses that might otherwise be wasted and provides "off season" use of time and labor. The profit is there for those with the know how.
